Opinions ...

... This book is a delight; I heartily recommend it (a) to anybody who has interest at all in how their CAS works and (b) to anybody who enjoys seeing elegant and rigorous mathematics applied to practical problems.
ALISTAIR FITT, Southampton Review in London Mathematical Society Newsletter, October 1999

... Pour conclure, il s’agit d’un travail d’une qualité exceptionnelle, qui est une source inégalée d’informations sur l’état de l’art dans le Calcul Formel - puisque c’est ainsi qu’on l’appelle chez nous.
MAURICE MIGNOTTE, Strasbourg Review in Gazette des Mathématiciens

... It’s really an impressive work. I’m sure it will become a reference for computer algebra algorithms, and stay it for a long time. Such a reference book was really missing. ...
PAUL ZIMMERMANN, Nancy, 26 May 1999

... On each page I can feel your thorough understanding and love for the subject and your uncompromising scholarship in presenting its story.
A masterpiece. ...
ERICH KALTOFEN, Raleigh NC, 28 May 1999

... I think it’s a most successful balance of intuition, rigorous mathematics, interesting and beautiful applications and completeness. The extensive collection of exercises makes it into an ideal textbook for the use in a graduate course. ...
TON LEVELT, Nijmegen, 21 June 1999

... The book is packed with useful information, judging from my samples, a pleasure to read. I predict it will be a major success. ... STEVE COOK, Toronto, 31 May 1999

... It is a wonderful book! I am working my way through it (for what will probably be the first of many times), and am very pleased with it. It is aesthetically beautiful, with the color plots and multitudes of epigraphs for each chapter. ...
TODD MOON, Logan UT, 17 August 1999

... You need to make the existence of your book known to a wider range of computer users than theoretical computer scientists. Thanks for filling a vacuum.
MICHAEL P. BARNETT, Princeton NJ, 18 October 1999

... we are all very much impressed by the quality of your work!
FREDERIC CHYZAK, Rocquencourt, 10 November 1999

... it looks stunning! ...
HENDRIK LENSTRA, Leiden, 24 June 1999
