Opinions ...

MCA: Wow! What a beautifully produced book, & what a wealth of information! Also written in perfect idiomatic English by two German authors! ... God in the details, she is in the index! ... DON KNUTH, Stanford CA, 30 June 1999

... Ich denke, das Erscheinen dieses Buches auf dem CA-Markt ist wirklich ein Ereignis. ... VOLKER STREHL, Erlangen, 26 May 1999

... It's really an impressive work. I'm sure it

... This book is a delight; I heartily recommend it (a) to anybody who has interest at all in how their CAS works and (b) to anybody who enjoys seeing elegant and rigorous mathematics applied to practical problems.

ALISTAIR FITT, Southampton ALISTAIR FITT, Southampton Review in London Mathematical Society Newsletter, October 1999

... Pour conclure, il s'agit d'un travail d'une qualité exceptionelle, qui est une source inégalée d'informations sur létat de l'art dans le Calcul Formel - puisque c'est ainsi qu'on l'appelle chez nous.

MAURICE MIGNOTTE, Strasbourg

Review in Gazette des Mathématiciens

... Auf den ersten Blick ist MCA sehr beindruckend und wird wohl ein Meilenstein in diesem Gebiet sein. Es freut mich, dass der Preis erschwinglich auch für Studenten ist. ... HELMUT MEYN, Erlangen, 29 May 1999

... On each page I can feel your thorough understanding and love for the subject and your uncompromising scholarship in presenting its story.

ERICH KALTOFEN, Raleigh NC, 28 May 1999

... I think it's a most successful balance of intuition, rigorous mathematics, interesting and beautiful applications and completeness. The extensive collection of exercises makes it into an ideal text-book for the use in a graduate course. ...
TON LEVELT, Nijmegen, 21 June 1999

... You need to make the existence of your book known to a wider range of computer users than theoretical computer scientists. Thanks for filling a vacuum.

MICHAEL P. BARNETT, Princeton NJ, 18 October 1999

... we are all very much impressed by the quality of your work!
FREDERIC CHYZAK, Rocquencourt,
10 November 1999

May 1999

The book is packed with useful information, a pleasure to read.

The book is packed with useful information, a pleasure to read.

The book is packed with useful information, a pleasure to read.

I predict it will be a major success....

I predict it will be a major success....

STEVE COOK, Toronto, 31 May 1999

STEVE COOK,

through it (for what will probably be the first of MOON, Logan UT, 17 August 1999

... it looks stunning! ... HENDRIK LENSTRA, Leiden, 24 June 1999
