

24th Crypto-Day

Bonn-Aachen International Center for Information Technology

4 April 2016

Bonn, Germany

On 4 April 2016, the interest group “Angewandte Kryptographie” of Gesellschaft für Informatik e. V. will host the twenty-fourth *Crypto-Day*.

Ambition and Program: The Crypto-Day aims at providing an opportunity for early-stage researchers in the field of cryptography and IT-security to exchange knowledge and establish networks to universities as well as to industry (e.g. for collaboration across Germany, or to find out about research internships and post-doc positions). Therefore, we invite students, doctoral candidates, and experienced researchers to present their research results or research ideas in the form of 20 minute presentations on this upcoming Crypto-Day.

The B-IT will host the event, co-located to the conference GI Sicherheit 2016.

Topics: The presented talks shall cover a broad spectrum from the field of cryptography or IT-security. We invite presentations of work-in-progress, contributions, which may be submitted to a conference, or summarize findings from a thesis

or dissertation.

Submitted articles corresponding to the presentations will be arranged in a technical report. Therefore, submissions will be quotable publications and will be published on the web page. Observe that this does not forbid the publication of the result at other conferences or journals.

Attendance: There are **no participation fees**.

Submission: Please submit an abstract of your talk (**one DIN A4 page**). To simplify generation of the technical report, we request you to only use the LaTeX template of the cryptography group and to provide the PDF file additionally to the LaTeX sources.

Further information related to the venue, as well as to the registration and submission process will be provided timely on the web page <https://cosec.bit.uni-bonn.de/students/events/kryptotag24/>.

Further Information (Program, Venue, LaTeX-template): <http://www.kryptotag.de>

Submission: Until **20 March 2016** per email

Registration: Until **20 March 2016** per email

Organisation: Frederik Armknecht, Universität Mannheim
Michael Nüsken, b-it, Universität Bonn
